Dan Cargill ✓  
District Inspector  
Department of Ecology  
4350 150th Avenue N.E.  
Redmond, Washington 98052-5301

Dear Mr. Cargill:

We have completed the excavation of sediments from the containment pond permitted under the Washington Department of Ecology State Waste Discharge Permit (Permit #5162). As requested in your letter of July 23, 1986, I have attached the results of extraction and TOC tests showing no contaminate exceeding MCL limits.

We respectfully request the written consent of the State of Washington, Department of Ecology, that the excavated material is suitable for unconfined disposal.

Sincerely,

Kenneth J. Rone, Jr.  
Plant Manager
